Figures have been prepared in accordance with International Financial Reporting Standards ("IFRS"). Management has accounted for the effects of inflation adjustment adopted by Resolution 777/18 of the Comisión Nacional de Valores ("CNV"), which establishes that restatement for inflation must be applied to the annual financial statements, for intermediate and special periods ended as of December 31, 2018 inclusive. Accordingly, the reported figures corresponding to FY20 include the effects of the adoption of inflationary accounting in accordance with IAS 29. In addition, in order to facilitate the understanding and analysis of the earnings evolution by its users, additional figures of the income statements are included, which are non-restated for inflation and which were used as the base for the information presented in constant pesos.
